

Changes to Secure Ballot Intake Stations (formerly known as Drop Boxes)

Due to the passage of Senate Bill 90 in 2021 and Senate Bill 524 in 2022, Secure Ballot Intake Stations (formerly known as Drop Boxes) will only be available inside your Supervisor of Elections Office during normal business hours and during early voting hours. These secure ballot intake stations will be monitored by election personnel while in use. The drop box that was located outside your elections office and was available 24/7 to the voters will no longer be available. For questions, please contact your Supervisor of Elections at 850-838-3515.
